Don't let your members be scammed out of their retirement!

The Financial Conduct Authority (FCA) and The Pensions Regulator (tPR) have launched a new fraud alert campaign called **ScamSmart**.

We urge all our employers and members to be on their guard if you receive an unexpected **'too good to be true'** offer to transfer your pension to them or to release some money from it. Your money is then often invested in unusual and high risk investments, or it is simply stolen!

If you or any of your members are approached, please visit the **ScamSmart** website before going any further – **Don't become another victim!**

Important News From Teachers Pension Scheme (TPS)

Increases to Employer Contribution Rates

Schools, colleges and universities have been warned to budget for an increase in the employer contributions they must pay into the Teachers' Pension Scheme (TPS) on behalf of their staff. The warning of a contribution rise follows the government's Actuary's Department completing its calculations to provide indicative results of the 2016 valuation of the Teachers' Pension Scheme

The key results are:

- Implementation of the change to the employer contribution rate will be **1 September 2019** (rather than 1 April 2019) due to the delay in this announcement
- The current employer contribution rate of 16.48% will be increasing to an **estimated employer contribution rate of 23.6%, for the period 1 September 2019 until 31 March 2023**
- The change to the SCAPE discount rate that is used to assess the current cost of future benefit payments, has necessitated for the increase in employer rates; the SCAPE rate will change from CPI + 2.8% to CPI + 2.4% from April 2019

- There will be funding from the DfE for the year 2019/20 to help meet the additional costs and a consultation process will take place to determine final funding arrangements. Funding for 2020/21 onwards will be discussed as part of the next Spending Review round.
- The indicative result also shows that the cost cap has been breached due to the value of member benefits having fallen, this is due to assumptions about earnings (pay increases lower than expected) and reduction in life expectancy. Discussion will take place with the TPS Scheme Advisory Board to recommend changes to the scheme design for career average section members of the TPS to align member

No doubt there will be more updates on this as we head towards September 2019 – we'll keep you posted!
